Profile

UI/UX Designer with 2 years of experience creating intuitive, accessible, and user-centered digital experiences. Skilled in **user research, wireframing, prototyping, usability testing, and design systems. Proficient in Figma and Canva, with foundational knowledge of HTML and CSS to ensure design feasibility and smooth collaboration with development teams.** Passionate about solving real user problems through research-driven and visually engaging design solutions.

Skills

- UI/UX Design: User Research, User Flows, Information Architecture, Wireframing, Prototyping, Usability Testing, Interaction Design, Design Systems, Responsive Design, Accessibility (WCAG)
- Front End Development: HTML5, CSS3, JavaScript, React.js (Foundational Understanding).
- Tools & Technologies: Figma, Canva, Adobe Creative Cloud, Visual Studio Code, GitHub.
- Soft Skills: Creative Thinking, Adaptability, Detail-Oriented, Problem Solving, Team Collaboration, Communication, Quick Learner.

Professional Experiences

UI/UX & Visual Designer - French Tweets Pvt. Ltd.

May 2025 – Dec 2025 | Jaipur, Rajasthan

- Designed user-focused digital experiences, marketing creatives, and educational content that improved audience engagement and strengthened brand communication.
- Collaborated directly with the founder to understand audience needs, define content strategies, and create intuitive visual experiences aligned with business objectives.
- Utilized AI-assisted design workflows and modern creative tools (ChatGPT, Midjourney, Runway, HeyGen, Adobe Firefly) to accelerate ideation, streamline production processes, and improve content delivery efficiency by 30–40%.
- Developed reusable design assets, motion graphics, and visual systems that ensured consistency across social media, marketing campaigns, and educational materials.

UI/UX Designer - Jobskart

Aug 2024 – Apr 2025 | Kota, Rajasthan

- Designed and delivered user-centered web interfaces and workflow-driven experiences that simplified user tasks, improved engagement, and enhanced overall platform usability.
- Conducted usability testing, heuristic evaluations, and user feedback analysis; implemented design improvements that increased user satisfaction scores by 80%.
- Created user flows, wireframes, interactive prototypes, design systems, and reusable UI components to support scalable and consistent product experiences.
- Collaborated closely with developers and product teams in an Agile environment to refine user journeys, improve interactions, and ensure seamless design handoff.
- Applied accessibility standards (WCAG), responsive design principles, and information architecture best practices to enhance usability across devices.

Freelance UI/UX & Digital Designer

Jan 2026 - Mar 2026 | Jaipur, Rajasthan

- Collaborated with clients across healthcare and service industries to understand business requirements and create user-focused digital experiences, visual assets, and communication materials.
- Contributed to website design improvements by refining information architecture, content hierarchy, page layouts, and responsive interfaces to enhance usability and user engagement.
- Designed landing page assets, digital interfaces, and visual content while maintaining accessibility standards, visual consistency, and cohesive user experiences across platforms.

Featured Projects

Portfolio Website - Built a fully responsive portfolio website using HTML, CSS & JavaScript with mobile-first approach.

E-Commerce Platform (Concept) - Designed a user-centered shopping experience focusing on accessibility, product navigation, and a smooth checkout flow.

Fundraising & Donation App (Case Study) – Designed an end-to-end donation experience including onboarding, campaign discovery, donation flow, and trust-building interactions through wireframes, prototypes, and high-fidelity mobile interfaces.

Education

Bachelor of Technology (Petroleum Engineering), CGPA: 8.87

Rajasthan Technical University, Kota | 2019 – 2023

Courses

Full stack web development with react

Naresh IT, Hyderabad
