Profile

UI/UX Designer & Frontend Developer with 2 years of hands-on experience creating intuitive, accessible, and scalable digital experiences. Expert in **user research, wireframing, prototyping, and end-to-end interface design**. Skilled in **React.js, HTML5, CSS3, JavaScript, and responsive design**. Adept at collaborating with cross-functional teams in Agile environments to deliver polished, user-centric products. Passionate about solving real user problems through data-driven design, rapid experimentation, and clean, maintainable code.

Skills

- UI/UX Design: Design Systems & Style Guides, User Research, Wireframing, Prototyping, Interaction Design, typography, testing and iterating.
- Front End Development: HTML5, CSS3, JavaScript, React.js, Bootstrap, Responsive Design.
- Tools & Technologies: Figma, Adobe Creative Suite (Photoshop, Illustrator, After Effects, etc), GitHub, Visual Studio Code.
- Soft Skills: Creative Thinking, Adaptability, Detail-Oriented, Problem Solving, Team Collaboration, Communication, Quick Learner.

Professional Experiences

UI, Content & Visual Designer - French Tweets Pvt. Ltd.

May 2025 – Dec 2025 | Jaipur, Rajasthan

- Designed engaging social media graphics, marketing visuals, and promotional videos, increasing engagement and improving brand visibility across platforms.
- Collaborated directly with the founder to develop content strategy, visual communication guidelines, and user-centered storytelling frameworks. Produced educational reels, motion graphics, and promotional assets to support course marketing and audience growth.
- Utilized AI-powered design and content-generation tools (Midjourney, ChatGPT, Runway, Adobe Firefly, etc.) to speed up creative workflows, generate concepts, and enhance production efficiency by 30–40%.
- Implemented a structured content workflow combining AI + manual design, reducing turnaround time and improving creative consistency.

UI/UX Designer — Jobskart

Aug 2024 – Apr 2025 | Kota, Rajasthan

- Designed and delivered user-centered web interfaces that improved task completion rates and increased overall platform engagement.
- Conducted usability testing, heuristic evaluations, and user feedback analysis; implemented design improvements that boosted user satisfaction scores by 80%.
- Created wireframes, interactive prototypes, design systems, and reusable UI components, ensuring 95%+ design–development accuracy and consistency across the product.
- Collaborated with developers and product teams in an Agile environment to refine user flows, improve interactions, and ship features efficiently.
- Optimized the information architecture, UI layout, and performance, resulting in faster load times and improved user retention.
- Applied UX best practices, accessibility standards (WCAG), and responsive design principles to enhance usability across devices.

UI/UX Design Intern — Meta Scifor Technologies (Remote)

June 2025 – August 2025 | Bangalore

- Created wireframes, prototypes, user flows, and high-fidelity UI for web and mobile apps, supporting end-to-end UX workflows.
- Collaborated with product managers and developers in an Agile remote setup to refine designs, improve usability, and ensure smooth developer handoff.
- Contributed to design systems and reusable UI components, improving design consistency and speeding up feature delivery.

Projects

Portfolio Website - Built a fully responsive portfolio using HTML, CSS, JavaScript; optimized load performance and interactions.

E-Commerce Platform (Concept) - Designed a user-centered shopping experience focusing on accessibility, product navigation, and a smooth checkout flow.

Tic-Tac-Toe Game - Developed a responsive JavaScript game with optimized logic and clean UI.

Education

Rajasthan Technical University, Kota ,Raj.

Bachelor of Technology (Petroleum Engineering), CGPA: 8.87

Rajasthan Technical University, Kota | 2019 – 2023

Courses

Full stack web development with react

Naresh IT, Hyderabad
